THE OPPORTUNITY

**THERE'S GOLD
OUT HERE.
IF YOU KNOW
WHERE TO LOOK.**

After extensive consultation and interest, the Kimba community have identified a suitable site for businesses requiring storage, processing, segregation, bulk freight and other supplementary services. Eyre Hub intends to create the foundation for progressive and innovative businesses to utilise the industrial facility for their tailor-made purposes.

Eyre Peninsula region produces premium quality grain that is always in high demand.

Consistent volumes, diverse commodities.

Grain needs to be stored but the region doesn't offer many solutions.

We offer tailored sites at a strategic location to service industry needs.

THE VISION

Imagine a state-of-the-art grain storage and transport hub at a highly strategic location on the Eyre Peninsula. That's the vision that is driving the EyreHub project.

Designed for industrial, commercial, transport and other tenants to service Kimba and the Eyre Peninsula, the project represents a significant opportunity for tailored and dedicated facilities.

It also provides the ability to capture varietal and superior quality grades of grain — a focus largely overlooked in the region for some time.

We welcome (innovative and progressive parties) to discuss with us their specific requirements to aid in the design of a facility that delivers for your business.
